Trainee System Admin

Description

Techvantage Analytics is a fast-growing AI services and Product Engineering company specialized in Analytics, Machine learning and AI-based solutions. We are seeking a motivated and enthusiastic Trainee/Intern System Administrator with a keen interest in DevOps practices to join our dynamic team. This internship offers an excellent opportunity to gain practical experience in system administration while also learning about DevOps methodologies and tools. The ideal candidate will have completed relevant courses in DevOps and possess a strong foundation in IT infrastructure management.

Responsibilities

- Assist in the administration and maintenance of our organization's IT infrastructure, including servers, networks, and cloud-based services.
- Support the implementation and configuration of DevOps tools and practices, such as continuous integration/continuous deployment (CI/CD), infrastructure as code (IaC), and configuration management.
- Collaborate with team members to identify areas for automation and optimization within our IT processes.
- Participate in troubleshooting and resolving technical issues related to system performance, security, and availability.
- Contribute to the documentation of system configurations, processes, and procedures.
- Stay current with industry trends and best practices in system administration and DevOps.

Qualifications

- Completed or pursuing relevant coursework in DevOps, system administration, or a related field.
- Basic understanding of Linux and Windows operating systems.
- Familiarity with cloud computing platforms such as AWS, Azure, or Google Cloud.
- Exposure to DevOps tools such as Git, Jenkins, Docker, Kubernetes, Ansible, or Terraform is a plus.
- Strong problem-solving skills and attention to detail.
- Excellent communication and teamwork abilities.
- Eagerness to learn and grow in a fast-paced, collaborative environment.
